Lancaster Farming

VOL [illegible] NO. 52 Lancaster Farming, Saturday, November 21, 1970 $2.00 Per Year

D. E. Horn, Miller & Bushong State Consolidation Plans

D. E Horn & Co, Inc. York and Miller & Bushong, Inc, Rohrerstown, Friday announced plans to consolidate

The firms are two of Pennsylvania's oldest agricultural product companies

In a joint announcement by Ernest Horn Sr, president of D E Horn & Co and Robert Graybill president of Miller & Bushong it was revealed that a formal intent to consolidate was filed Friday with the Internal Revenue Service

Horn and Graybill said that stockholders of both companies had voted for the consolidation which, when approved by IRS, will result in one of the largest firms of its kind in this part of the country

Miller & Bushong, Inc was founded in 1885 and the D E Horn & Co, Inc has been in business for 51 years

Five years ago the two companies jointly acquired the Grimes Poultry Processing Corporation of Fredericksburg Grimes subsequently acquired Cloisterdale Farms, Inc, and the L M Sheaffer Egg Co both of Ephrata Under the plans of the consolidation, Grimes will continue to operate as a wholly owned subsidiary of the new corporation, with Sheaffer and Cloisterdale Farms as divisions of Grimes

The new firm will employ 500 people and have sales of approximately $35 million

In addition, it was announced that D E Horn & Co of Red Lion, Inc will continue to operate its mill under the same name, personnel and management within the proposed new organization

"The strengths resulting from this proposed consolidation will mean increased services and expanded activities in new products as well as geographic coverage from both organizations", the announcement said Existing plant facilities will be maintained and headquarters for the new corporation is expected to be located in Lancaster

Under plans of the consolidation, Ernest Horn Sr will become chairman of the board, Robert Graybill, president, Ernest Horn Jr, vice president-operations, Alvin Allison, vice president-marketing, Donald E Horn, secretary, Richard Hobday, treasurer, and Donald E Henning, controller

The consolidated companies market feed for livestock and poultry in the Pennsylvania, Maryland and New Jersey areas, as well as miscellaneous agricultural supplies such as chemicals, fertilizer, garden supplies and fuel

Their consumer products include fresh eggs, ice packed poultry and Dutch Treat precooked frozen chicken products, which are distributed and sold throughout the northeastern area of the country

Co. 4-H'ers 2nd At Timonium

The Lancaster County 4-H livestock judging team, representing Pennsylvania, placed second at the Eastern National Livestock Show in Timonium, Md., last Saturday.

The local team was edged out by North Carolina, 1,815 to 1,804. Ohio was third with 1,781

The local group also placed second at the Pennsylvania Livestock Exposition earlier in the week

At Timonium the local team was first in beef, second in sheep and third in swine judging

Ed Dorough, Manheim RD4, led the team with 619 points out of a possible 650 Other team members are Gary Dean, Strasburg RD1, Clark Stauffer, Ephrata RD1, and Burnell Buchen Manheim RD3

Farm Bill

The U S Senate this week passed the farm bill The House had previously adopted the measure

The bill now goes to President Richard Nixon for signature, which appears assured since the administration backed the bill

Key provisions of the new measure include a maximum federal payment limit of $55,000 and a new "set-aside" provision

Quarryville Barn Raising

In spite of bad weather, about 35 persons turned out by noon Friday to assist the Stanley Stauffer Jr family at Quarryville RD1 construct a new 60 by 132 foot barn

The barn, which will include a new milking parlor and milk house, will house the Stauffer's 75 Holstein cows and 12 heifers

Plans are to complete the work within three weeks The goal Friday was to complete erection of 40 rafters and possibly begin the roof work, according to Mrs Stauffer Ten men are required to put up one rafter under the construction procedure being used The carpenter is Joshua Stoltzfus, Kinzers

Several women prepared food at their own homes and at the Stauffer home to feed the men

Weekly Review

November 16-18

CATTLE — Compared last Friday, High Choice and Prime Slaughter Steers 25 50 lower, Average Choice and Below steady. Slaughter Heifers steady to 25 lower. Cows strong to mostly 25 higher. Bulls unchanged.

Receipts 77 percent Slaughter Steers, 20 percent Heifers, balance mainly cows Overall finish of Slaughter Steers not as attractive as last week with 13 percent Prime and 80 percent Choice. This compares with 16 percent Prime and 79 percent Choice last week, and 13 percent Prime and 79 percent Choice last year. Average cost and weight of slaughter steers, estimated at 28 35, lowest for any week in two years, and 1170 lbs., heaviest since July, compared with 28.71 and 1158 lbs. last week, and 28 55 and 1156 lbs. a year ago. Heifer supply mainly High Good to Low Prime weighing 850-1075 lbs.

SLAUGHTER STEERS — Prime 1200-1400 lbs Yield Grade 3 and 4 29 00-29 50, load 1275 lbs. Monday at 29 75, latter the lowest weekly top since last December. High Choice and Prime 1075-1350 lbs 28 50-29 00. Choice 950-1350 lbs Yield Grade 2 to 4 27.50-28.75, mainly 27.75-28.75 on Wednesday Mixed Good and Choice late 27.25-27 75, Good 26 00-27 25, Standard and Low Good 25 00-26 00.

SLAUGHTER HEIFERS — On Wednesday, High Choice and Prime 950-1075 lbs Yield Grade 3 and 4 27 50-27.75, latter price the lowest weekly top since November, 1968 Choice 850-1050 lbs Yield Grade 2 to 4 26 50-27.50, Mixed Good and Choice 26 00-26 50, Good 24 00-26 00.

Mortality Decline Ups Egg Supply, UEP Says

The statistical department of United Egg Producers has just completed an analysis which provides evidence of a change in the egg supply problem.

Gene Masters, Director of Statistical Information for the nationwide cooperative, has evidence that the average fowl mortality has been reduced during the past year. The reduced mortality rate is adding to the producers problem of attempting to get the laying flock size down to the level recommended by the USDA guidelines.

It was pointed out that on October 1, 1970, the USDA reported that laying flock size was 321 million as compared to 313 million on the same date last year. About 57 million pullets are expected to reach 6 months of age during October and November of this year This large number of pullets entering the laying flock is the result of the high level of chick placements in April and May and of the reduced mortality rates

Add to this the present and expected future increases in feed costs and the outlook is gloomy, Masters said.

The UEP statistical department sees a close correlation between the increased use of the vaccine starting last spring and the present reduced mortality level.

Masters said the obvious solution to the present flock size increase is to continue to follow the "Action Now" program It is pointed out that the 23 per cent reduction in chicks placed in August will help reduce the flock size in early 1971.

Another point in the 'Action Now" program is to hold placements to 1969 levels for the rest of the year. Increased placements during the rest of the year combined with reported increases which have occured since August could offset the August hatch reduction, he said

Another point in the "Action Now" program which is vital to reducing the present build-up in egg flock size is to increase the rate of slaughter.

New York Eggs

November 18, 1970

Prices, compared to yesterday, were generally unchanged. Receipts up slightly from yesterday Country point offerings to ship increased from Southern areas; steady to lighter from nearby Offerings of large and extra large whites liberal with extra large in longest position. Medium inventories continue to improve while smalls are now in good balance with needs Demand continues slow and unaggressive Pricing is not a factor in many quarters as very attractive offering prices on both extra large and large were failing to stimulate interest Packing for Holiday carton orders continues to improve at out of town points but still unaggressive locally

Save Farming, Environment

As the population continues to grow and as living becomes more consumer oriented, the need to stress a clean environment becomes increasingly important. Otherwise, filth and ugliness will grow geometrically.

In the past, there was danger that this fact would not be properly recognized.

Today, there is danger that it will be recognized too well. There is danger that persons who don't properly consider alternatives and consequences will attempt to railroad through unwise — both technically unsound and financially unrealistic — solutions.

Ignored too much and too long, many of those who proposed environmental reform became crusaders. Unfortunately, in establishing reform, crusades sometimes destroy much that is good and accomplish much that is not desirable.

In the environmental issue today, the challenge for everyone, including farmers, is how to do the job at hand without being destroyed by it. How does the individual meet the need for a cleaner environment without being swept away and destroyed by unrealistic solutions?

In this regard, we believe, farmers cannot afford to assume any longer, as some have done in the past, that the environmental question will go away. We think the environmental issue will be stronger, much stronger, in the years ahead than it has ever been in the past. The treat to the environment of more people using more things is simply too real for the issue to die without a struggle.

We can hope that new inventions and new techniques will make it much easier to handle the problem. But we cannot just assume this will happen. Letting George do all the work to solve the problem could get the farmer in trouble in the future. Now is the time to study the problem, as the farmer studies other problems and eventually finds solutions.

On the other hand, farmers must not allow themselves to get into a defensive position on the environmental issue. Farmers must not allow themselves to feel overly guilty about their share of the pollution.

While controlling a very large proportion of the nation's land area, farmers contribute a very small proportion of the overall national pollution, not more than 15 per cent by one estimate.

At the same time, the farm is often the victim, rather than the source, of pollution. Around many cities, farmers are often destroyed economically because pollution destroys their crops. This treat to farmland, even in Lancaster County, can be expected to grow.

While taking direct economic losses from pollution which is not their own, farmers are making giant contributions toward pollution abatement. They are installing better land management practices. Their land is absorbing the pollution from urban areas. Their crops, through the processes of nature, are purifying the air.

Thus, while moving steadily and surely to do an ever better job of controlling the environment so as to make it a better place in which to live, the farmer must work actively to insure that his urban friends keep the problem in perspective.

After all, a clean and healthy and enjoyable environment benefits everyone — farmers most of all. But the farmer must make sure that while the clean environment crusaders ultimately win the day, they do it in a rational and sensible manner which makes everyone a winner.

NOW IS THE TIME...

By Max Smith
Lancaster County Agent

To Evaluate Farm Records

Good farm records are necessary for many reasons in addition to the filing of an accurate income tax report. Time spent during the fall and winter months analyzing the farm records is well worth the effort. Some people may call it "pencil pushing," but it should be time well spent The profits or losses on the various farm enterprises can be recognized. Future plans for expansion or being more profitable should be guided by the current farm records.

To Ventilate And Insulate

Many farm buildings are filled to capacity with livestock. In the case of animals in stalls or in confinement, there may be need of exhaust ventilation in order to have proper animal production Both heat and humidity need to be removed without causing a draft Insulation will prevent condensation and lengthen the life of the building. Publications are available on ventilating dairy barns.

To Control Parasites On Livestock

Colder weather has arrived and more is to come; heavier hair coats will result in greater difficulty to eliminate body lice from livestock All producers are urged to treat for lice now before colder weather comes. External parasites feed from the vigor of the animals and reduce efficiency Young stock either raised locally or brought in from southern states should be checked for stomach worms. Parasites of any kind will decrease profits and should not be tolerated.

Soft Drinks vs. Milk

New Holland Division of Sperry Rand recently forwarded a copy of an editorial from Hoard's Dairyman, one of the better farm publications We agree the content of this editorial needs to be more widely understood and appreciated by everyone The editorial, in part, states

"While milk is still the number one beverage, soft drink sales have been climbing about eight per cent each year during the past decade

"In our library, we tried to locate some information on the nutritional value of soft drinks Significantly, we found only one reference Apparently soft drinks are so nutritionally inferior that other authors do not even consider them USDA's Yearbook reveals that coke does contain carbohydrate, over twice as much as milk And it does have food energy, but less than two-thirds as much as milk. But it is completely devoid of every other essential ingredient listed: Protein, fat, calcium, iron, vitamin A, thiamine, riboflavin, niacin, and ascorbic acid.

"Now one closing observation: A government nutrition expert reported, in effect, earlier this year that every glass of soft drink consumed means a glass less of milk. Consider that the per capita use of milk is at 540 glasses while soft drinks have climbed to 418 glasses.

"It should be obvious that we have our work cut out for us in the fields of nutrition education and sales promotion. It would be a tragedy were we to let this great potential market go by default because of our indifference."

The fact that soft drinks are the number one competitor of milk has long been widely understood by knowledgeable persons within the farm community

But the extent of the soft drink competition and its adverse impact on the dairy industry has not been widely enough understood Certainly, not much has been done about it

If soft drink sales climb at eight per cent a year and if each glass of soft drink sold means loss of sale for one glass of milk, the seriousness of the soft drink competition is self-evident.

Already, consumption of soft drinks has climbed to an average of about 418 glasses per year for each person in the U S. That compares to about 140 glasses of milk.

While milk is still the nation's number one beverage, soft drinks have been gaining steadily.

How much of its markets is the dairy industry willing to give to soft drinks? How much can it afford to give? When will it draw the line?

These are the types of questions the dairy industry must confront, probably the sooner the better.

SPIRITUALLY UNEMPLOYED

Lesson for November 22, 1970

Background Scripture: Proverbs 2 1-15; Mark 1 16-22; 6 7-13, 30 34; Ephesians 4 11-16
Devotional Reading: Proverbs 24 3-7.

Let's suppose that Jesus had asked you to help him in the selection of a group of twelve intimate disciples. In all likelihood you would throw up your hands in dispair at his first choices. How could he possibly select men like that big, clumsy Peter or those two ambitious brothers, James and John. What could ever come of a movement composed of men like these? None of them ever likely to be named a "man most likely to succeed".

Rev. Althouse

At face value

Viewed at face value, none of these men would seem likely candidates for the special group of twelve who would share Jesus' brief public ministry. Yet Jesus obviously saw something in them that gave some promise for the future, if not the present. In fact, three of the most unlikely candidates became his closest associates Peter, James, and John formed a sort of inner circle that occupied a special place in Jesus' ministry. There are a number of references in the gospel stories where the writers single out "Peter, James, and John". Apparently they were unofficial leaders in the group of twelve.

These men had no formal training, no education to speak of, no background, no experience — nothing! So what did Jesus see in them that led him to call them to so important a task? Perhaps one clue as to what he saw in them is found in the way they responded to his challenge. He called them and "immediately" they left what they were doing and began to follow him. Perhaps it was this responsiveness, this readiness to follow the right man and learn what he might teach them that Jesus saw in them.

Immediately they left their nets!

That kind of responsiveness is a characteristic not to be taken too lightly .We can only appreciate the immediacy of their response if we ponder our own hesitancy in responding when Christ calls us. When his challenges come to us, it seems, it is always "too" something: "to early", "too late", 'too little", 'too much", "too easy", "too hard", etc. But, according to the gospel writers, there were no excuses nor alibies offered by the disciples when Jesus called them.

Thus, off-setting their seeming lack of ability, background, and talent, was a willingness with which Christ could work wonders. Perhaps there is in this simple fact a truth of which we ought not to lose sight: The primary qualification for any Christian service is willingness to be used by Christ. The first thing Jesus seemed to look for was this responsiveness. If he found this, it seemed, he could provide the rest.

Many of us have probably seen this same truth in evidence somewhere in our own experience. There will be a call for someone to perform some kind of service. Often, the most-qualified people will excuse themselves for one reason or another (often with the excuse that they are not qualified). At last, one of the least likely people will take the task simply because no one else will do it. Frequently these people will surprise us, doing a far better job than we would ever suspect Their willingness to say "yes" and to learn overcomes much of their other unfitness.

How many of us remain spiritually unemployed because we are hesitant to follow when he calls us?

Results From Pa. Livestock Exposition

A Manheim RD3 farmer was one of the successful showmen at the Pennsylvania Livestock Exposition at the Farm Show Building, Harrisburg, last week

Mark Nestleroth, Manheim RD3, placed first in the adult class live hog evaluation contest.

The Nestleroth's Dutch Valley Farm also placed first in the medium weight single barrow on foot and had the reserve champion barrow on-foot

Other winners in the swine were: single open barrow on-rail, 185-200 pounds — eighth, Dutch Valley Farm; champion barrow on rail — — Quay Brown, Brodbecks; reserve champion on rail — Peggy Brown, Brodbecks, single barrow on-foot, light weight — ninth, Dutch Valley Farm breeding swine, Duroc, February gilt — ninth, W F Ruoss, Ephrata; tenth, Frank B Ruoss, Ephrata

Placements in livestock divisions included a crossbred steer from a pen which won first place honors for T Shearer and G Dutry of Glen Rock, sold for 75 cents a pound; grand champion pen of Angus feeder calves, Walter S Laird, Dover

Winners in the Junior Hereford individual steers categories were

Light weight steers — first, Bill Martin, New Holland RD1, third, Glenn W Brubaker, Neffsville, sixth, Marlin Bollinger, Denver RD2 eighth, Carol Lee Oberholtzer, Mount Joy RD2, tenth, Dennis S Brubaker, Lancaster

Medium weight steers — second, Carol Walter, New Providence RD1, third, Roger Walter, New Providence RD1, fourth, Anne Martin, Narvon RD1, fifth Donald Bollinger, Denver RD2, sixth, Karen McCleary, Stewartstown RD1 seventh, Gary S Brubaker Lancaster eighth, John Eneck, Holtwood RD1, ninth, Reba S Nissly, Lancaster, tenth, Randall Lapp, Lancaster

Heavy Weight steers — fifth Ray Brubaker, Lancaster sixth Sheryl D Weaver, New Holland RD1 ninth, Ray Brubaker, Lancaster, tenth, Marvin L Nissley, Mount Joy RD1

Winners in the junior Shorthorn individual steers were

Light weight steers — first, Wade A Edris, Palmyra, third, Nancy Herr, Lancaster

Medium weight steers — first, Robert S Hess, Mountville, third Roland Longenecker, Lititz RD2

Angus junior individual steer winners were

Light weight steers — third, Sheryl D. Weaver, New Holland RD1, fourth, Donald Doward, Quarryville RD2, fifth, Dennis Miller, Lebanon RD4, sixth, Elaine Herr, Lancaster, seventh, Gary Dean, Strasburg RD1; eighth, Gary Dean, Strasburg RD1, tenth, Gary L Dixon, Hellam Branch RD11

Medium weight steers — first, Donald McCleary, Stewartstown, RD1, third, Marvin L Nissley, Mount Joy RD1; fourth, Dennis Miller, Lebanon RD4 fifth, Linda High Leola; sixth, Kevin Bucks, Palmyra RD2 tenth, Glen S Brubaker Jr Lancaster

Heavy weight steers — fourth, David Wylie, Nottingham; fifth, Jim Wylie, Nottingham; sixth, Sheryl D Weaver, New Holland RD1; eighth, Michael Longenecker, Lititz RD2, tenth, Karen High, Leola

A winner in the junior Charolais individual steers, lightweight, was Susan Herr, Lancaster, second

Angus Feeder calf steers, pen of five — fourth, Walter S. Laird, Dover RD3, fifth, Vivid Angus Herd, Stewartstown RD1 sixth, Shives Angus Farm, Seven Valley RD1, ninth, Shives Angus Farm

Brazilians Visit Co. Farm Loan Office

Nine men and a woman from Brazil were in Lancaster County Monday and Tuesday to study agricultural credit including bank, farm and FHA credit

The Brazilian delegation, which included bankers, agronomists and extension agriculturalists with the Northeast Bank of Brazil spent all day Monday and part of Tuesday in the office of Roy Geismann, Lancaster County Supervisor of the Farmers Home Administration, in the Farm and Home Center

Tuesday afternoon the group visited the farm of Paul Zimmerman, Lititz RD1

The Brazilians were slated to visit elsewhere in Pennsylvania until Friday before visiting New York. They previously had spent a week each in North Carolina, Louisianna, and Washington, D.C under the Agency for International Development (AID) program.

Geismann said that the Brazilians represent an area where most land owners own only 10 to 20 acres, while most of the land is held in large ranches A major objective of the trip here, he says, is to attempt to find ways to enable more Brazilian landowners to have adequate sized farms

At Lancaster, the specialists studied real estate loans and credit assistance to rural groups, and in Perry County on Wednesday and Thursday they reviewed count operations and participated in round table discussions of the possible adaptations of Farmers Home Administration policies and methods for use in their own country

On Friday the group met with state officials responsible for directing the Farmers Home Administration program in the Federal Building Harrisburg. They studied the administrative skills needed to make the agency's supervised credit program function smoothly

Co. 4-H'ers Show Steers in Md.

Lancaster County 4-H members had three class firsts at the Eastern States Livestock Exposition at Timonium, Md., last Saturday

Placings by local 4-H'ers in the steer competition include the following

Don Dorwart, Quarryville RD1, was first and Sheryl Weaver, New Holland RD1, second in the Angus senior calf class Billy Martin, of New Holland RD1, was first and Gary Brubaker, Rohrerstown, second, in the late summer yearling Hereford class

Nancy Herr, Penn Grant Road, Lancaster, was first, and Robert Hess, Mountville, second, in Shorthorn senior calf

Agway Unit Holds Annual Meeting

The pace of change is greater than at any time before and this fast rate of change will continue, persons attending the annual meeting of Agway's Garden Spot unit were told Monday at the Farm and Home Center.

Mark Hess, unit manager, also advised farmers to "weigh carefully" the investments made in machinery and equipment to make sure that income will pay for the items and still leave enough for the family.

Invariably, he said, he has found that "where children are delinquent there was generally a parent who refused to face up to delinquency of the child and bring discipline to bear." He said that parents of delinquents generally refuse to accept the fact that their children are going wrong and little acts gradually lead to big ones.

The following Agway committeemen were elected: Amos H. Rutt, Quarryville RD2; Paul M. Herr, Quarryville RD1; Morris Book Jr., Honeybrook RD1, and Melvin R Stoltzfus, Ronks RD1.

Various local and area Agway officials also made brief reports. Henry E Shenk chairman of the board, conducted the meeting. Several door prizes were given.

State Police Lt. Joseph I C Everly, left, accepts a citation for Troop J of the local state police on behalf of Captain Stanley B. Kramer from Agway at the annual meeting Monday. Presenting the award is Lester M. Shughart, right, Agway's chief executive of the southern division. Looking on is State Police Commissioner Frank McKetta, who also received a citation along with Police Chief David M. Rineer of Lancaster City police.

Credit is another item that needs to be handled carefully, he said. In his statement on Agway for the fiscal year ending June 30 Hess reported increasing suburban sales, increasing efficiency of service in southern Lancaster County and improved operation as a result of the Salunga mill acquisition.

He said the Salunga plant is well located geographically and gives the firm a substantial amount of new grain storage.

Other development is anticipated at Salunga he said Agway presently is studying the feasability of converting to greater use of bulk feeds, he said.

Appearing on the program were Merritt K Freeman, a Pennsylvania Dutch humorist and Colonel Frank McKetta, state police commissioner.

Freeman urged his audience to 'learn to live and laugh and thus delay your epitaph,' while McKetta presented a serious discussion of the growing police problem involving both rapidly growing accident and crime rates.

McKetta particularly blamed the crime problem on improper guidance of children by their parents and failure to instill a proper respect for individual rights.

The "stand-out" corn crops in Lancaster County in 1970 were the crops grown from Funk's-G seed. For grain . . . for silage . . . plant the "hot" hybrids . . . the most talked about hybrids . . . Funk's-G! Call your Hoffman Seed Man.

Agway officials at the annual meeting Monday are, left to right: Elwin Peet, Petroleum manager; Mark Hess, Garden Spot Unit Manager; Heber Shelly, Agway Bee-Line Supply Center, and Art Cochran, area manager.

Twin Valley FFA

A meeting of the Twin Valley Future Farmers of America was held Tuesday in the vocational agriculture classroom at Twin Valley High School with 21 members and three guests present

The meeting was brought to order by Fred Mast, president. The minutes of the previous meeting were read by Bob McGowan, secretary and approved as corrected The treasurers report was given by Paul Oldham with $533 19 in the treasury and was filed for audit

Mast talked about the following events Chapter Farming degree which is to be held on December 7 in the vocational agriculture classroom and the Berks County degree which is to be held December 8 at Tulpenhocken High School at 7 30 p m

The hoagie sale committee report was given by Frank Stoltzfus, vice president The chapter sold 580 hoagies

Bob McGowan read a letter received from the Governor Mifflin FFA, an invitation to participate in a basketball game on January 11, 1971 McGowan moved we accept the invitation. The motion was approved.

Paul Oldham moved the Governor Mifflin FFA be invited to Twin Valley to play a basketball game on January 1, 1971. The motion was seconded and passed

Frank Stoltzfus moved the 1970-71 budget be accepted for the Twin Valley FFA. It was approved

Jerry Jackson moved to have a calendar sale The motion was seconded and passed The calendar committee consists of juniors and seniors

Bob McGowan moved we give four crates of Florida oranges to the FHA to use at a Christmas party for the girls at Stain Mary's A committee of three was appointed to look into it. The committee consists of Jerry Jackson, Bob Hornberger, and Jeff Gable.

Members of the Manheim Young Farmers stop at the farm of Leon Wilkersen this week during a farm tour sponsored by Miller & Bushong. Looking over part of the herd are, left to right, Mr. Wilkersen, Jess Erway, Manheim Young Farmers Advisor, Dale Hershey, Donald Hershey, and Frank Campbell, Miller & Bushong representative.

Manheim Young Farmers Tour

Thirty-two members of the Manheim Young Farmers were guests of Miller & Bushong on a tour of four Chester and Philadelphia County farms Thursday.

Four sponsors from Miller & Bushong, Frank Campbell, Bob Gregory, Elwood Earhart and Ed Snavely, accompanied the tour.

Farms visited were Buck and Doe Run Farm managed by Sam Wilson. Mr Wilson said the cost of production is of main concern on the ranch as shown by 20,000 tons of grass pasture clippings and other roughages as the main silage.

Experimentation on feeding is a main part of his feeding operation showing gains of three to five pounds per day on 800 pounds to finishing weight on some of the lots of steers. Although testing of silage is done, he pointed out the tests do not always answer his efficiency problems.

They feed 6,000 steers, most shipped in from the west after

Farm Bureau Federation Official Hits U. S. Farm Policy

Pennsylvania agriculture may survive the final quarter of the Twentieth Century in spite of the active intervention of the federal government, the assistant director of the Washington office of the American Farm Bureau Federation said in Lancaster Wednesday

John C. Datt, a veteran of 20 years as a lobbyist in the Nation's Capital, spoke at the Lancaster Rotary Rural-Urban luncheon on "Will the Federal Government be successful in Eliminating Pennsylvania Agriculture?" A native of Butler County, he holds an advanced degree in agricultural economics from Pennsylvania State University.

"Under both Democratic and Republican Administrations the federal government has long been pursuing policies detrimental to Keystone State farmers," Datt said.

"President Nixon's government farm program bill, on which the Senate may vote today (Wednesday), is the latest example of discrimination against Northeastern agriculture on the part of Washington.

"It continues the indefensible 'cheap food' policy.

"It does not move away from farmers' dependence on government checks, as President Nixon promised during his campaign to do.

"Fortunately," Datt said, "Pennsylvania's members of Congress have not been a party to passage of the Nixon farm bill Twelve Pennsylvania Democrats and 13 Republicans voted against it in the House of Representatives and only one Democrat voted for it Senator Schweiker voted against it and Senator Scott was paired against it

"No state in the union had a better record in this respect," Datt reported. And he added that eleven Pennsylvanians introduced what he called "sound, constructive farm legislation" during the 91st Congress

"One of the many weaknesses of the Administration's farm bill," he continued, "is its uniform treatment of all wheat This has taken away any premium which Pennsylvania farmers might have had because of the superior milling qualities of their grain"

"Another area in which Washington is working against your interests," Datt told his Lancaster audience, "is the field of environmental controls.

"If the federal government unduly restricts farmers' use of pesticides, animal drugs, and other production tools, farm production costs will be driven to new highs.

"No research scientist has yet discovered the odorless hog," he said in a humorous reference to the demands of people whom he called 'environmental purists'"

"An overriding consideration affecting the future of Pennsylvania agriculture," Datt said, "is the economic policy pursued by the federal government"

"It now appears," he forecast, "that full employment will be more of an objective than inflation control is.

"If this course is indeed followed," he said, "watch out!"

"More inflation will increase farmers' costs and reduce the availability of farm labor without necessarily increasing the dollar incomes of producers," he said.

While conceding that he was bringing only "forecasts of stormy weather from the Nation's Capital," Datt said Keystone State farmers and businessmen have "at least one remaining avenue of opportunity open"

"Work for understanding among your fellow citizens and your Congressmen" he said "You have a fine tradition of active involvement in public affairs Keep your farm and business organizations working for you and remember that, while Washington may try to lead us in the wrong direction, we Pennsylvanians don't have to be followers The direction we go is up to you"

ONLY BROCK has all this.

Farmers Hit High Taxes At Ag-Industry Banquet

Rising land prices and taxes stemming from population growth are major concerns of local farmers, it was indicated Thursday night at the tenth annual Agriculture-Industry banquet at the Farm and Home Center

Raymond Stoner of 1051 Eden Road near Lancaster, said, "A major problem is development which increases the taxes on farm land.

"Developments increase land value The school taxes on property out our way are terrific."

Noting that "city people are moving into rural areas," Carl Hess of Lampeter said, "In rural areas, the bigger population creates more of a tax burden on the farmer Added services require more taxes Farm land is taxed as real estate"

Raymond Witmer of Willow-Street RD1 also noted that 'we're losing the farm land" to investment speculators and developments

Melvin Stoltzfus of Ronks RD1 said "development isn't a problem in my area yet, but it is one we have to think about. I've heard stories of a farmer selling parts of his land for development Then the people objected to the farm odors and forced the farmer out of business"

Stoltzfus indicated he is more concerned about the consumer's blaming rising food costs on farmers He said, "These costs can be attributed to packaging and marketing The farmer profit is not much higher than it has been This has been possible only because the farmer has been the most efficient businessman, increasing yields without greatly increasing his own costs''

Manheim Young Farmers Tour

(Continued from Page 10)

cows of the Santa Gertrudis harvest season and 185 brood herd with most of the steers grading out good for market

Green Valley Farms, owned in partnership by Leon Wilkersen and sons, is a dairy farm with 200 cows to supply milk for a jug milk plant A major problem is keeping the supply of milk to the consumer, buying and selling cows to keep the production up

On this farm of major interest was the way the manure was handled in three large lagoons and the feedlot area being washed down by water supplied by a pond above the barn The manure in the lagoon is then used in an irrigation system to feed the land closest to the farm The group was the guest of the family for lunch at the jug milk plant

Another stop was on an incorporated farm operated by Dwight Rath, a fairly new milking setup for 300 milk cows and farming of 2,000 acres of corn, some land as far away as 50 miles Rath pointed out the need to operate on need, not desire by the farm operator

Last stop was to see the Mordell Allied farm dairy and calf raising practices. A very excellent 100 cow herd has 16,000 pounds of milk average.

37 REGISTERED HOLSTEINS 37
In the Dairy Sales Barn

This herd consists of 30 Registered Holstein cows, 6 Registered bred & springing Heifers, 1 Registered Bull. Herd has been in existence for 28 years with continuous registered improved breeding. Most of the cows were sired by ABC breeding in addition to an older sire "HOOGBOOM KING SKY" (Hoogboom Madcap Butterking); Also a sire was used many years ago a son of CARNATION STANDOUT (EX) (GM) and another sire was used — MEREDITH SUNSHINE STAR son of Harborcrest Sunshine. Dam of this bull: 2y10d 17, 490M — 4.6% — 809F.

This herd has not been DHIA tested and no records are available. The quality, mannerisms, udders and type are proof of the many years of progressive breeding. The herd has been scheduled for fall production with many fresh cows and close springers at this time.

TB and Bangs accredited, calfhood vaccinated and retested for sale. Catalogs available at sale.

ON THANKSGIVING WE PAUSE WITH HEARTFELT THANKS FOR OUR PRICELESS BLESSINGS AND THE PRIVILEGE OF SERVING YOU.

Russel Kline (right) of Reinholds has been named winner of the Eighth Annual Ephrata Jaycees Steer Award.

Congratulating Kline recently at his farm is Andy Kuzmiak of the Jaycees. The Jaycees purchased the 420-pound Angus from Bergundy Farms, Orange, Va., at the Pennsylvania Livestock Exposition in Harrisburg.

The son of Mr. and Mrs. Vernon Kline, the young steer winner is a member of Cloister FFA Chapter of Ephrata. Besides the steer, his farming enterprise includes five Holstein heifers and two sows.

Inter-State Will Meet

Local dairy farmers who are members of Inter State Milk Producers' Cooperative, will send delegates to represent them at their annual meeting at the Marriott Motor Hotel, City Line Ave., Philadelphia, Tuesday and Wednesday, November 24 and 25

The program is keyed to dairy farmers and their problems, and will feature Charles B Shuman, President of the American Farm Bureau Federation

Shuman has been president of the AFBF since 1954. He has been a controversial figure in Washington as he speaks in behalf of farmers throughout the United States and for programs with "grass roots" beginnings.

The Inter-State Milk Producers' Cooperative, with its home office in Philadelphia, has some 3,000 dairy farmer members in 24 districts in Delaware Maryland, New Jersey and Pennsylvania These districts, in turn, are divided into 79 locals whose 117 delegates will vote on resolutions and new business at Wednesday's session

The session on Tuesday, November 24, will be devoted to reports by Wilbur Seipt, President, Dr James E Honan, General Manager, Dr Paul E Hand, Secretary & Economist Florence Schultz, Treasurer, Golden W Davis, Management Assistant, Donald Copeland, Counsel, Watson Buckman, Director of Transportation, and Boyd C Gartley, Director of Member & Public Relations.

In addition to the address by Charles Shuman at the banquet Tuesday evening., before about 700 members and guests of Inter-State, entertainment will be provided by Kaye Hart, a nationally known entertainer

William O Mills, Administrative Assistant to Congressman Rogers C B Morton will be toastmaster

A special Ladies Meeting on Tuesday morning November 24, will offer the wives of attending delegates a program consisting of a historic tour of Philadelphia

Members of the Annual Meeting Committee are Lester Jones, Vice President chairman, and Directors Daniel L. Martin, William Brinsfield, and President Seipt and General Manager James E Honan serving ex officio

The Resolutions Committee is composed of Elwood Gruwell, Fenton, Del., J Calvin Baker, Williamsburg, Pa., J Grove Miller, North East, Md; and Claude W McAllister, Bridgeton, N J

Serving on the Ladies Committee are Mrs Omer Dulin, Jr., Queene Anne, Md., Mrs. Carl Feucht, Jr., Middletown, Del., Mrs Wilmer E Jones, Columbus, N J., and Mrs Calvin S Kurtz, Elverson, Pa.

Lancaster Farming

SECOND SECTION

Millers Expand a 4-H Capon Project

By Mrs. Charles McSparran
Farm Feature Writer

Many farm people in the county raise just a few capons for their own use when they want exceptionally fine tasting fowl

And some people are introduced to this delicacy when their children have capons for a 4-H project No exception to that rule is the Charles N Miller family, Lititz RD3

But few can match the 600 raised a year by the Millers That's a heap of good eating!

Mrs Bernice (Bernie) Miller says," I never thought I'd be in the chicken dressing business '

It all started seven years ago when the Millers' sons, Robert and Paul, had capon projects in the Lititz-Manheim 4-H Community Club It expanded to 300 capons last year and became a family project They also dressed them This year they have 600 They just bought a picker to simplify the dressing process

They sell them at their farm along the Fruitville pike near Erb's Quarry Road and also at Root's Country Market and Auction, Manheim RD1, at the Howard Stauffer's stand

Millers are cousins of Stauffers Stauffers market their home raised celery onions and eggs all year at the stand and Millers have capons there except during the summer The market is open every Tuesday from 2 to 10 p m Mrs Miller goes at 1 p m to help set up the stand and also helps sell when needed

Millers started dressing this season's capons the first part of October and have dressed 125 so far The dressed capons average 8 to 10 pounds when they sell them and are selling for 70 cents a pound Capons are much in demand for the Thanksgiving and Christmas market

The three Miller boys got 300 six-week old white caponized birds through the 4 H club this year and Millers bought Hubbard Silver Cross sexed male chicks and had Dr Wilson Miller, a veterinarian from Rohrerstown, caponize them They keep the birds until they are six or seven months old Mrs Miller says the Silver Cross capons get heavier quicker and dress easier They had one that weighed eleven pounds this year

The Lancaster Kiwanis Club sponsors the Lititz-Manheim Capon Club and entertain them at their regular luncheon meeting at the Elks Club in Lancaster for their Round-Up They have a speaker from the chicken industry Some other clubs bring their capons to this Round-Up, too, although some clubs in the county have their own Round-Up Club members must take two capons to show at this Round-Up, plus some extra ones to sell

Mr and Mrs Miller have four children Robert 19, graduated from Manheim Township High School in the general course and works for Hubers Nursery He had capon and swine 4-H projects for seven years He is interested in farming

Paul 17, is a senior at Manheim Township High School and is enrolled in the general course He plays the piano for their family enjoyment and is taking piano lessons He also has been in 4-H swine and capon clubs seven years

Mrs. Charles N. Miller holds a 9½ pound capon she just dressed.

Stanley, 12 is in seventh grade in Manheim Township Middle School He has been in 4-H two years and is completing his third project He plays clarinet in the school band All the boys help their father with the farm work and dressing the capons

Ruth Ann, the only daughter, is three years old

Millers' farm has been in their families many years Mr. Miller's grandparents owned it and lived there then his parents lived there 10 years, until he was three years old Then Mrs. Miller's parents, Mr and Mrs. Elvin Snyder bought it So Mrs. Miller has lived there since she was nine years old Three years ago Mr and Mrs Miller bought it from her father Mr. Snyder now lives at the end of their lane

The farm has 65 acres in it. Mr Miller grows 12 acres of tobacco He also grows corn and barley and feeds most of it He buys 45 to 50 head of beef cattle a year to fatten from the Lancaster Stock Yards They weigh about 700 pounds apiece when he buys them

He also keeps 20 Yorkshire-Landrace cross sows which he crosses with Berkshire He sells most of the shoats at eight weeks or around 40 pounds The boys fattened some and bought some for their 4-H projects.

(Continued on Page 18)

A house of capons on the Miller farm ready for the Thanksgiving market.

Millers Expand a 4-H

(Continued from Page 17)

Robert and Paul each had five hogs in 4-H projects and Stanley had three although they did not get heavy enough for the Round-Up at the stockyards.

Charles has been driving a Manheim Township school bus for two years. His run from the Milton J. Brecht School goes via Park Cit., Wiggins Chevrolet and the Mennonite Home. Prior to driving a school bus he worked. At that time Millers kept 200 Leghorn layers and sold eggs at the farm.

Millers belong to the Evangelical Congregational Church in Lititz where Mr. Miller is a Steward and he and Robert sing in the choir. Mr. Miller is Assistant Sunday School Superintendent and Mrs. Miller teaches a class of older women. The three boys are in the church youth group. The whole family is interested in the missionary outreach of the church.

Bernice works with a teenager (12-20 years) mission group that meets once a month. They have speakers sometimes and film strips. Some of their projects are making Spend-A-Day calendars in which the church prays for a missionary on a certain

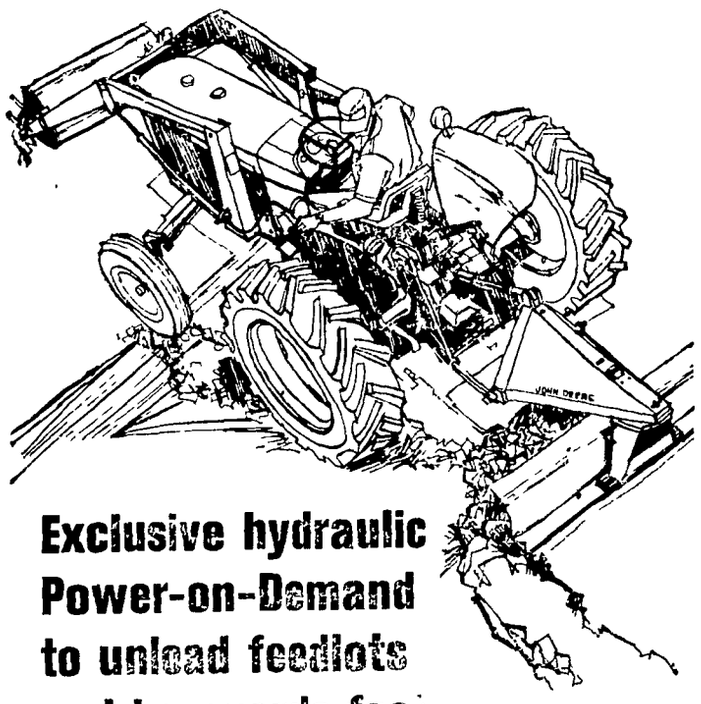
Pick a John Deere 38 h.p. 1020 as your haymaker, get this bonus...



Exclusive hydraulic Power-on-Demand to unload feedlots and barnyards fast

A package of big-tractor features . . . wrapped up in a compact, two-ton tractor design . . . that's the "1020." For haying, it provides well-spaced travel speeds ranging from 1.3 mph in 1st gear to 7 mph in 6th. It delivers "live" PTO power through midpoint and rear PTO outlets to drive a full lineup of hay tools. For loading chores, the "1020" generates hydraulic Power-on-Demand to lift a 1/2-ton bucket load . . . and provides "floating" hitch control over rear blade. Be our guest for an on-your-farm test. Credit? You bet.

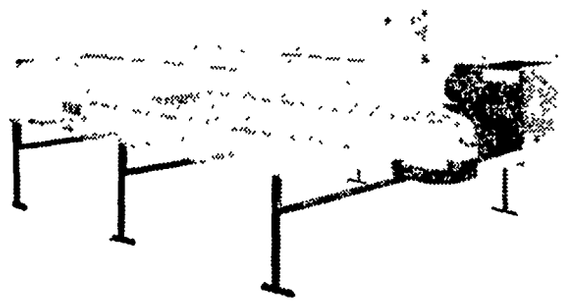
LABOR SAVER

"Systemated" by Big Dutchman®
A DIVISION OF U.S. INDUSTRIES INC.

THE ALL NEW FLAT DECK CHIK-EZE PULLET REARING CAGE



. . . offers durability, economy, performance and practical labor saving features that increase management efficiency.

The heart of the system is the Big Dutchman chain and trough feeder providing 96 inches of feeding space per cage. There is full availability of all the feed to all the birds. All feed is automatically recirculated and remixed, resulting in better feed consumption.

Extra feed capacity makes high density of birds per cage low practical and manageable.

FLAT DECK CHIK-EZE FEATURES

- High bird density per square foot of building.
- Easy accessibility for better management.
- Uniform distribution of heat, light and fresh air.
- Fully automated feeding and watering from day old to 20 weeks.
- Better feed conversion; less feed waste.
- Single water adjustment for entire growing period.
- Minimum stress. Feed and water easily accessible. Cleaner, healthier birds.

The world's finest systemated equipment is at your Big Dutchman distributor now.

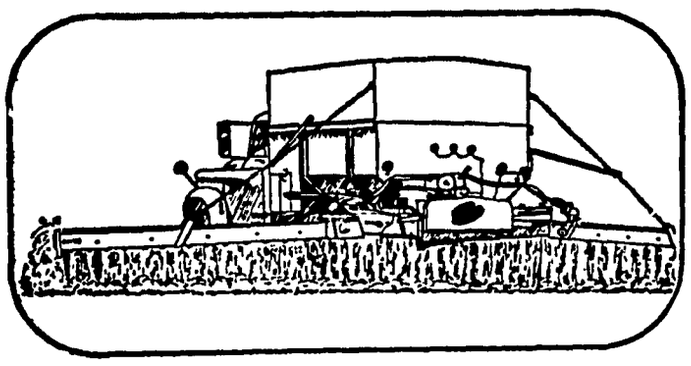
Apply Lime In The Fall For A Better Crop Next Summer



Fall liming assures proper limestone distribution in the soil, ready for spring planting. The freezing and thawing of winter aid in the process of limestone dissemination. So, why wait, correct your soil deficiency now by liming, and reap a bigger harvest next summer.

Chester Co. 4-H'ers Enter State Horse Show

Months of intensive practice and competation paid off for some Chester County 4-H members last week when they won awards at the State 4-H Horse and Pony Show in Harrisburg.

Loretta Chiarelli, Downingtown, placed second in the state in the Hunter Under Saddle Horse while Frances Dunn, Chester Springs, placed fifth in the Working Hunter Pony.

Other county horse club members competing in the State Show were Steve Lester, Uwchland, Kathy Shaw, Downingtown, Natalie Smith, Parkesburg, Pam Taws, Paoli, and Stephen Winckelman, Malvern.

Riders and their horses, all winners in county and district eliminations, were entered in 25 different classes with members from each district in the Commonwealth competing. Approximately 375 contestants participated in the show.

The primary purposes of the State 4-H Horse Program are to develop riding skills, gain self-confidence by competing in shows, receive training in leadership and citizenship, and learn the meaning of responsibility by caring for an animal. The classes in the state contest gave the members an opportunity to display these skills.

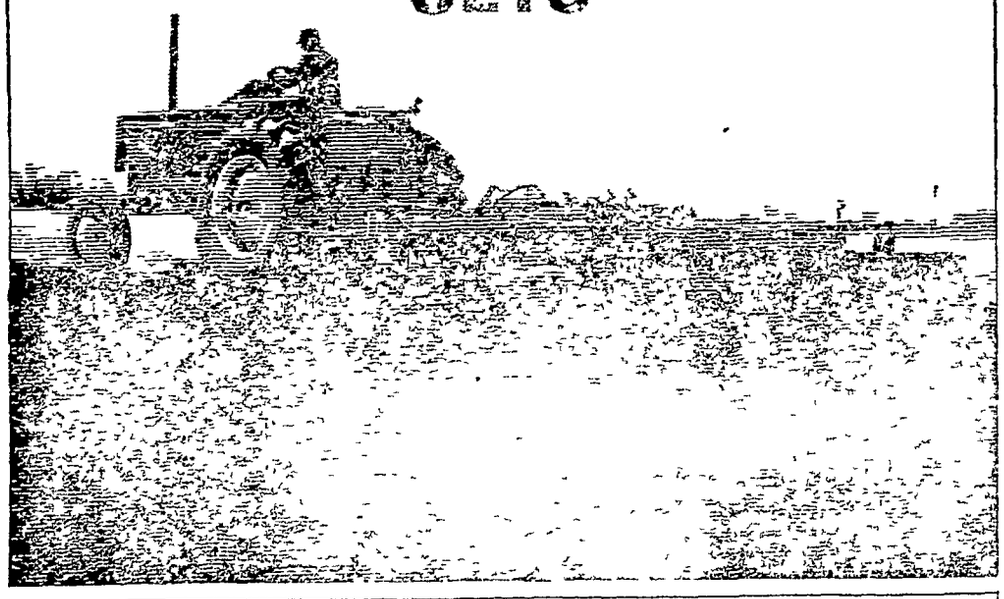
SEEMS LIKE THE SUN NEVER SETS



ON AN ALLIS-CHALMERS DISC-HARROW

HERE'S a disc that'll help you cover more acres every hour ... so many more you'll think the sun is standing still. An Allis-Chalmers 2200 saves you time and money ... gives you the soil pulverizing action you're after.

Gang angles can be changed quickly and easily to match field conditions ideally ... and the solid one-piece gang construction keeps all blades revolving together for better leveling and maximum tilling. Factory sealed *Bal-Pak* bearings never need greasing ... roll easy for a light draft load to let you cover more ground faster with less fuel consumption.

Beat the sun and stay ahead of big acre tillage operations ... with an Allis-Chalmers 2200 Series disc harrow. You'll say Going Orange is Going Great.

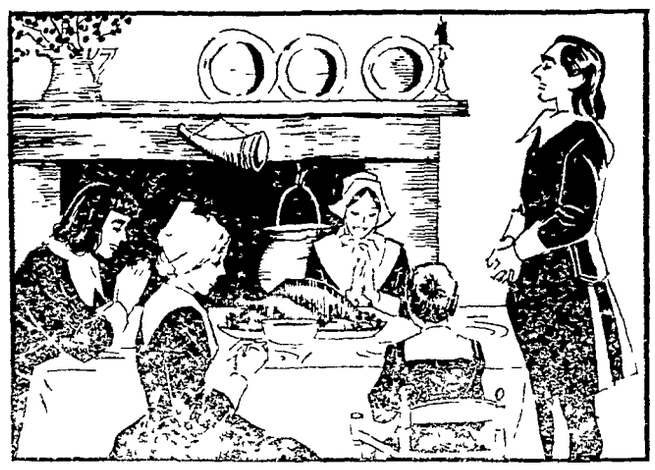
Thanksgiving



We Gather Together In Thankful Spirit . . .

To meet with family and friends
. . . to express our thankfulness
for the many good things of life
. . . these happy customs began
with the first Thanksgiving Day
And may they long continue! At
this season, it's our favorite
custom to extend our thanks and
best wishes to our friends and
customers. To all of you, a happy,
hearty Thanksgiving!

Pa. Egg Marketing Assn. Holds Meeting

President Frank Troester called for a special report on the 1971 Farm Show at a recent meeting of the Pennsylvania Egg Marketing Association

It was reported that plans are being made to have a complete egg and poultry products show in January There will be new additions and a new and popular theme for today

The egg pyramid will be made again with new designs and donations of eggs are needed The group quickly responded and the number of cases needed were committed.

A report on the Scholarship Fund indicated that it was shy by $25 and much more than this should come from the members No special commitments were made but there was a general feeling that the $200 needed would be over subscribed This will permit the Association to assist a worthy student

Sam Berenson reported that he did not compose and mail any letters as requested in a motion at the October meeting He felt that it would be more expedient for letters to come from the Association instead of the Legislative Committee and all chairmen should receive a copy The letters will call attention to the existence of The Unfair Sales Law of August 11, 1941 P L 900

The previous motion was amended to send letters to all chairmen from the Association

Fred Pontz reported that there are really only a few retailers who are solicited for business by hundreds of suppliers Many times the solicitor does certain things because he feels that if he does not he will lose the business

What each seller really needs is some kind of pricing procedure The industry cannot produce or buy into prosperity, but can market into prosperity, he indicated.

Pontz prepared a questionnaire on price structures These should be executed, not signed, and sent to the secretary for analysis

Earl Hess reported that all of the committees on the Brand Egg Program have not met physically but some work has been done by phone He said that more committee work must be done and the program must take form and move ahead

The committee on Standards chaired by Ray Sauder and including E J Lawless Jr., John Wenger and I R Musser met on two occasions and the following is the result of the committees early thinking

Brand Egg Program — Products Standards

1 Weight Standards — Shall be identical to the Pa Official weight stardards

2 Quality Standards—Shall be identical to the Pa Official weight standards

3 Package Markings — All cartons shall be marked so that the consumer shall have complete knowledge of size, quality and expiration date Expiration date shall be six (6) days Coding shall be registered with the Pennsylvania Department of Agriculture

4 Units — Unit shall be good clean unblemished cases in all sizes.

5 Packaging Strength — Cartons and cases shall have sufficient strength to protect eggs

6 Plant Sanitation a Each plant shall agree to accept air sampling at least twice a year or more if necessary

b Trucks shall be kept in a sanitary condition and subject to inspections

c There shall be use of good housekeeping standards set up for this program

7 Refrigeration Eggs shall be kept under refrigeration while in storage and in display cases

8 Inspection The PEMA will request the cooperation of the Pennsylvania Department of Agriculture to perform the complete inspection service for the program

9 Administration — There shall be a committee of three (3) appointed to administer the program They shall serve for 1 2 - 3 year terms

10 If a member violates the rules of this program there shall be a hearing held by the committee

11 Members of the Committee shall be participants of the program

E. J. Lawless Jr.
Secretary

CRITICAL PATH CROP PROGRAM

AGRICO® LOCKS N-P-K INTO EVERY PELLET

AGRICO Won't Separate— You Get Even Distribution.

Agrico is chemically mixed —**every pellet** contains the same amount of N-P-K, Secondary and Micro-nutrients. These elements can't possibly separate in shipping and handling—because they are all bound together in each pellet.

You get more uniform, more efficient distribution of plant foods over every inch of your fields . . . for thicker, more uniform growth; for better yields and higher income.

AGRICO Mixed Fertilizers are a giant step on the Critical Path to Farm Profit. Get more detailed information from

the proved way to give pigs the right start—

PURINA® PIG STARTENA®

Purina Pig Startena is a proved complete starter. It's the result of constantly improved Purina complete starters. In research tests the latest improvement boosted growth by 12.4 percent from 5.2 percent less feed, over the former ration—and that ration did a great job.

Purina Pig Startena is fed from the time pigs have been started on Purina Baby Pig Chow at one week until pigs weigh about 50 pounds.

If scours is a problem feed extra highly-fortified Purina Pig Startena (Special) for a week to ten days.

Tylan® is available in Pig Startena T-1 when you have swine dysentery problems.

Ask for this famous pig starter at our store.

Solanco FFA Initiates 32 Greenhands

The Solanco FFA Chapter recently initiated 32 Greenhand or first year members.

The group included the first girl member, Beverly Dearolf, in the 34 year history of the chapter

Shown in the photo, the new Greenhand members, first row, left to right, are David Glatfelter, Randy Clark, Dennis Carnathan, James Eisenberger, Bryan Wagner, Thomas Clawson Second row, Merv Keener, Fred Lefever, Charles Coates, Hobert McMillion, Dan Lowery, Phillip Waters

Third row, Robert Zeiger, John Heckel, Tom Stottlemyer, William Barr, Rick Lewis, Donald Dorward, Michael Winters, Allen Crider, Donald Reath

Top row, Phil Kreider, Harold Farmer, Robert Lewis, Randy Hodgen, Jeff Unger, Carl Killian, Lewis Kauffman, Dale Heck, Eugene McMillion. Greenhands missing from the picture are Beverly Dearolf and Dennis Lefever.

Beverly Dearolf, center, receives congratulations from Arba Henry, left, Chapter Advisor, with Scott Kreider, right, Solanco FFA president, observing Beverly is the first girl member in the Solanco Chapter since its founding 34 years ago.

Patrick M. Lantz Replaces Swartz As District Forester

Patrick M Lantz, 36, superintendent at the Penn Nursery, Spring Mills, has been named District Forester of Forest District 17, at Port Kennedy, the Department of Forests and Waters has announced

Forest District 17 is comprised of the following counties Lancaster, Berks, Chester, Montgomery, Bucks, Delaware and Philadelphia This appointment was effective Nov 19

Lantz succeeds Kenneth D Swartz, 34 as District Forester of Forest District 17

Swartz has been transferred to take over a similar post in Forest District 1, Fayetteville RD2, which includes Cumberland, York, Adams and Franklin Counties, effective November 19

A native of Topton, Berks County and a former resident of Kutztown, Lantz attended the Topton Junior High School, graduated from the Kutztown High School in 1952, and received his B S in Forestry from Penn State University in 1956

day. This is planned long in advance. They make Christmas cards with tea bags, soup mix or Kool-aid and send to home or foreign missionaries At Easter they made gifts and took them to shut-ins and visited them in their homes

Robert had a week's leave of clerked in a store two days a absence from his work this fall and went to their church's Kenyon Falls mission at Beattyville, Kentucky to deliver clothing, toys, quilt patches and material to make rugs Some other area churches of their denomination also contributed to this

Bernie says, "I kind of like my home I seem to find so many extra things to do at home I love to sew, make clothes for myself and Ruth Ann I enjoy cooking and baking" She does lots of canning and freezing Her hobbies include making fancy candles. She makes Christmas candles to give as gifts She likes to arrange artificial flowers. Five years ago she started a correspondence course to write for Christian publications She didn't finish it but still has a desire to She plays the piano and sings, just for the family she says.

Some of Bernice's favorite recipes include this pie which was a special Christmas favorite that came from her Dad's mother

COCONUT CUSTARD
Makes 2 pies

- 1 cup sugar (scant)
- 1 cup King syrup
- ½ cup flour
- 2 cups milk
- pinch of soda
- 2 eggs
- ½ cup shredded coconut

Mix eggs, sugar, flour syrup, soda and coconut Add milk Place mixture in an unbaked pie shell and bake at 350 degrees until a golden brown, approximately 30 minutes

This pastry recipe is easy to make and can be used for any kind of a pie

EGG YOLK PASTRY

- 5 cups sifted flour
- 4 teaspoons sugar
- ½ teaspoon salt
- ½ teaspoon baking powder
- 1¼ cups lard
- 2 egg yolks

Combine dry ingredients Cut in lard Place egg yolks in measuring cup and stir with a fork until smooth. Blend in enough cold water to make a scant cupful Mix and roll out as usual

Here's a couple delicious recipes to accompany your roast capon for your Thanksgiving feast.

BREAD FILLING

Put a pinch saffron in ½ cup hot water In a large pan melt 2 sticks (1 cup) of margarine and ½ cup shortening When it starts to brown, chop in one small onion When onion is brown add 1½ loaves of bread (cubed) Stir and salt Beat 1 egg, add saffron and enough milk to moisten the bread Use as stuffing or put in a baking dish and put in oven until a golden brown

FRUIT SALAD

- 1 lb. red grapes (cut)
- 4 oranges (cut and remove juice)
- 1 medium can crushed pineapple
- ½ lb. small marshmallows
- 1 cup English walnuts (chopped)
- 1 cup cream (whipped)

DRESSING:

- 2 tablespoons butter
- 4 tablespoons sugar
- 2 eggs
- juice of 2 lemons

Add cooled dressing to cream and pour over fruit.

A real good candy recipe you might want to try for Christmas or some other special occasion.

CHOCOLATE CARAMELS

- ½ pint cream (whipping cream)
- 2 cups granulated sugar
- 1 cup brown sugar
- 1 cup King sprup or molasses
- 6 squares Hersheys unsweetened baking chocolate

Cook until soft ball stage Add after cooked a pinch of salt and 1 teaspoon vanilla Pour into butterd pan When cool cut in squares and wrap in wax paper

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

Let's Talk Turkey

If Ben Franklin had had his way back in Colonial days, the turkey and not the bald eagle would now appear on the Great Seal of the United States America gave turkey to the world, but the wily, wild creatures of Colonial days are not the same as today's meaty and flavorful birds With some of the biggest turkey eating days just around the corner, it's time to talk turkey so here are some tips on buying

THOMAS

Kinds of Turkey

Knowing what to look for when buying your turkey will help you be a more satisfied shopper Generally, you will find three kinds or classes of turkey First is the fryer-roaster a young, immature bird, usually less than 16 weeks of age and weighing 4 to 8 pounds ready-to-cook. The meat is very tender but generally there is not as much meat in relation to bone as older turkeys because the fryer-roaster type bird is still growing. Turkeys weighing 8 to 16 pounds are young hens or young toms and are usually labeled as such These birds are not more than eight months of age and are the most popular size because they fit most familys needs Birds labeled hen turkey or tom turkey are fully matured, usually older than 10 months and generally

Ida's Notebook

By Ida Risser

Time moves on

In fact I think it moves at a maddening pace

Just now my son is practicing for a Christmas play at school which he helped to write in October He wanted to be the curtain puller, but somehow they persuaded him to play the father role

His fifth grade class went to Philadelphia last Friday and I with several other mothers, went along to keep track of them They were all cooperative except one little girl with a camera She was either way ahead of the group or trailing at the end with her flash bulbs

Independence Hall and Betsy Ross house were some of the highlights of the trip Many artifacts of the period were displayed in the First Bank of the United States 1795

Just listening to the children chatter about cigarettes, sleeping pills and television commercials was an education in itself and a sign of our times—they are too knowledgeable

While hunting for a cow with a new calf the other morning, my husband shot a pheasant which fell in the Conestoga So he had to row the aluminum boat out to get it It is one of the pleasures of farming to be able to mix fun with work from time to time

Over the years we have enjoyed square dancing regularly with a group of friends

Recently one of our hosts added a new feature, or should I say an old one He prepared for a husking bee complete with red ears of corn and a promise that the "finder" could kiss the prettiest chick on the floor Was he surprised when they presented him with a healthy white leghorn chicken!

Many a time we have felt too tired to go dancing on a Saturday night but we've come home rejuvenated and glad we made the effort

Have you tried freezing apple cider? We had several milk cans full and it disappeared rapidly as friends and relatives helped us use it. Umm—good.

● Ladies, Have You

(Continued from Page 23)

represent the best buys in terms of price and yield

Size To Buy

The big problem when buying turkey is deciding on the size to buy Remember that the per pound cost decreases with the larger size and yields more meat in relation to bone A ten-pound hen ready to cook will yield 51 per cent cooked meat or about five pounds of meat while a 21 pound tom will yield 54.5 per cent cooked meat or 11.5 pounds of meat A rule of thumb that is easy to follow is that a medium size turkey weighing 8 to 16 pounds will yield about 10 to 20 servings, while larger turkeys weighing 16 to 24 pounds will provide from 30 to 50 servings

Grade Assures Quality

For assurance of quality, look for a shield-shaped U S Grade mark Using the U S Grade as a guide you can be sure you are getting the kind of quality for which you are paying Any graded poultry must first have been inspected for wholesomeness, which means the birds were examined before and after processing and the facilities are operated in a sanitary way The inspection label is a round mark, the grade label is a shield-shaped mark Inspection represents wholesomeness, grading represents quality

New Way To Thaw

Are you looking for a more convenient method of thawing frozen turkey? Then try this new way Thaw in a closed paper bag at room temperature Just put the turkey, in its original wrapper, into a paper bag and thaw at room temperature It is as easy as that The closed bag keeps the temperature low enough to protect quality and it is more convenient than thawing under cold running water or in the refrigerator. Large, 20 to 25 pound turkeys will require about 16 hours thawing time Smaller one need about 12 hours

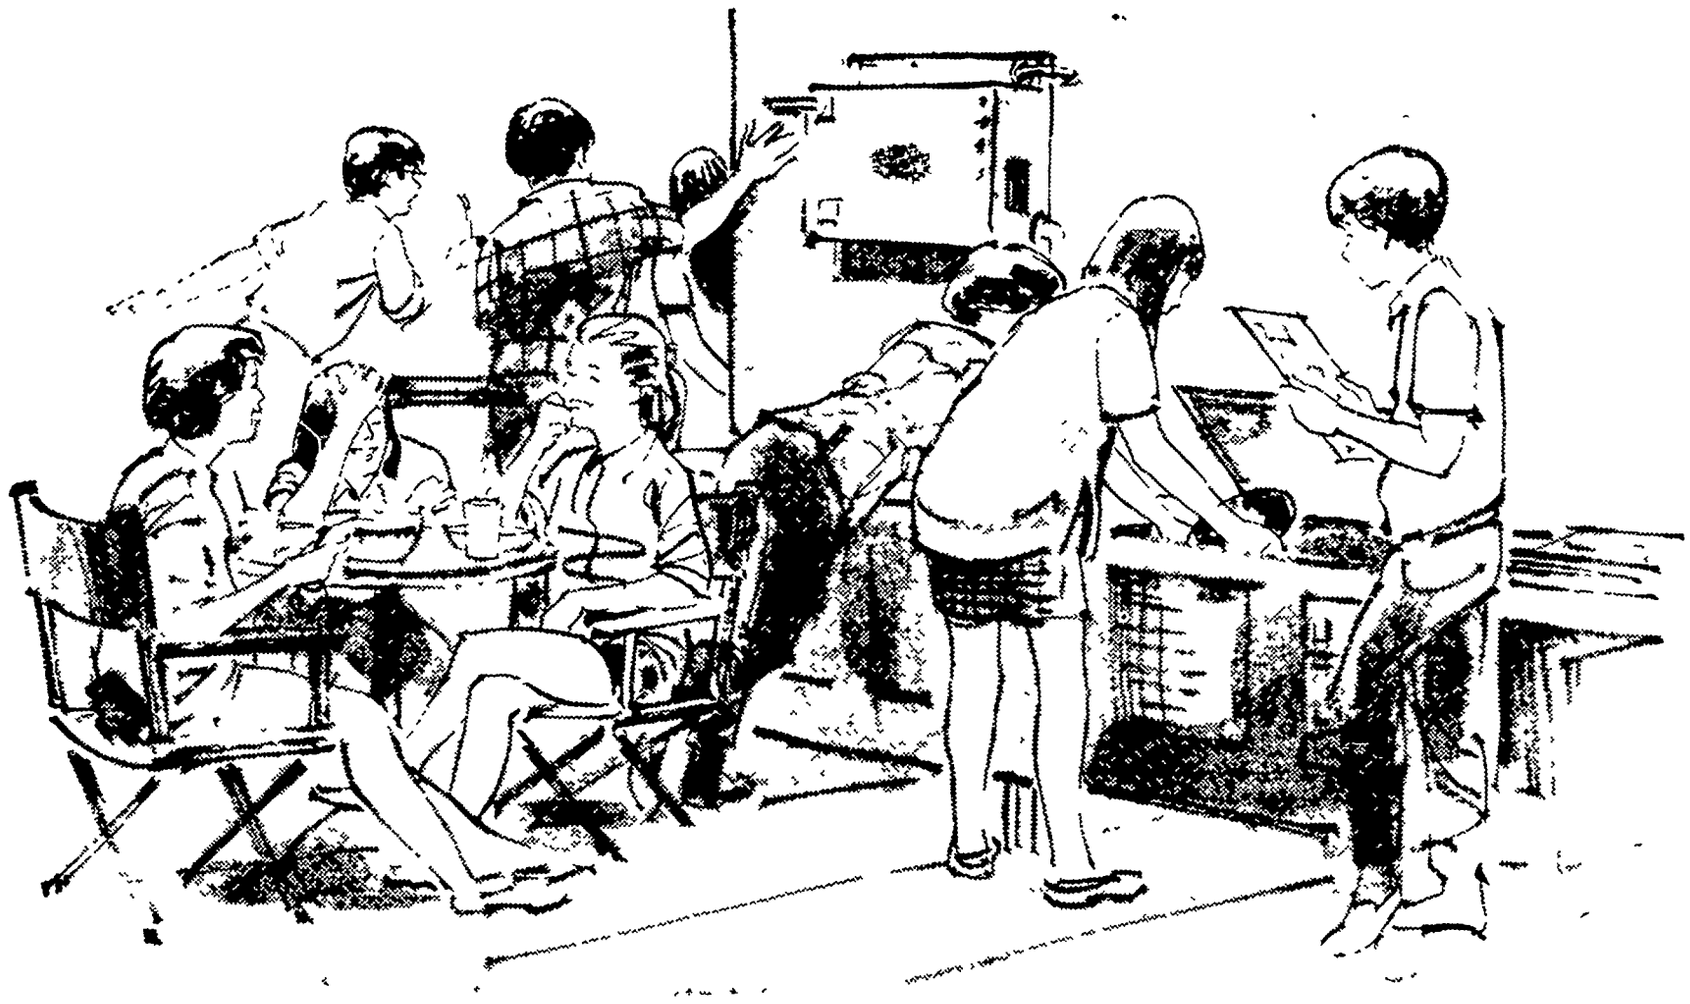
Mrs Eva Keener conducted the devotions The roll-call was answered with a Thanksgiving thought

Mrs Andrew Lowe had charge of the business session

Homemakers Day will be held

(Continued on Page 26)



What electric hydronic heat is - and what it can do for you

First, a look at the picture will tell you that electric hydronic (hot water) heat does the job in a lot less space than your present type of heat. The suitcase size unit hanging on the wall replaces the furnace and fuel storage you now have cluttering up your basement.

Not only is hydronic electric heat compact, it's also flamelessly clean . . . it conveniently does away with fuel deliveries and fuel storage . . . it is virtually maintenance-free . . . and it can be tied right into your existing hot water system for a rapid changeover.

If you have a fuel-fired hot water system about ready for replacement investigate electric hydronic heat now. Or you may want to learn more about the four other types of electric heat—warm air, ceiling cable, baseboard or heat pump. For complete information and a free estimate of operating costs, call PP&L or your PP&L Recommended Electric Home Heating Dealer, listed in the Yellow Pages under "Heating."

PENNSYLVANIA POWER & LIGHT COMPANY

Farm Women Societies

(Continued from Page 25)

Monday November 30, at the Farm and Home Center and the members will display a table of articles made during the year They will meet at the home of Mrs Warren Kline 109 Fruitville Pike Wednesday, December 2 to dress dolls and stuff toys for the Venture Club Friday, December 18 three members will help to distribute the toys to needy children

table during Homemakers Christmas program on November 30 at the Farm and Home Center. Items to be sold are to be taken to the home of Mrs. Ober, Mount Joy RD1, or Mrs. Donald Drager, Marietta RD1, by 8 a.m. on that day.

At the next meeting on December 14 members will hold a Christmas party for guests at the Picket Rest Home, Columbia. Cars will leave the Congregational Mennonite Church, Marietta, at 6:30 p.m. Following the party, members will return to the home of Mrs. Richard Shellenberger, Mount Joy RD1, a.m. until 3 p.m. with a covered dish luncheon at noon for a business meeting and social hour when dollar gifts will be exchanged among members.

Society 30

Mrs. Melvin Lauver, Akron, was the guest speaker at a meeting of Society of Farm Women 30 as they entertained Society 1 in the Grace Brethren Church. Mrs. Donald Horning presided.

The Society of Farm Women 30 will entertain guests at Conestoga View on Wednesday along with Society 29. The group will also stuff toys for the Venture Club Toy Shop on Dec. 9 at the home of Mrs. Donald Good, 413 West Cedar Street, New Holland, from 10

Some volunteers will sell Christmas cards for the Heart Association on Friday, Nov. 20 in the New Holland Farmers National Bank. A gift of $150 was presented to a member for family medical expenses relevant to a prosthesis for one of her children.

The annual Christmas banquet will be held December 12 at the Willow Valley Inn. Glenn Eshelman, Manheim, will present the program. Reservations must be made with Mrs. Reuben Zerset, New Holland R1, by December 3. Husbands will be guests.

Japan Developing New Dairy Products

Japan is making great strides in the creation and development of new dairy products according to Dr. Richard E. Farrar, executive vice president of Dairy Research, Inc.

Farrar made a tour of dairy plants in Japan and other countries after attending the International Dairy Congress in Sydney, Australia, October 12-13.

While visiting the Tama Plant of Morinaga, near Tokyo, Farrar found such products as a whey based orange drink, skimmilk with lactic acid and a caramel flavor, a milk based carbonated drink with banana flavoring. These products plus others are all on the Japanese market and attaining good sales volume and customer acceptance.

One of the highlights of the Morinaga visit was a guided tour by the Plant Manager of the Demineralizing Plant featuring an entirely new process of electrodialysis which makes it possible to demineralize not only whey but also milk. As a mark of respect the American flag was flown outside the plant during Dr. Farrar's presence.

Dairy Research Inc. located in Arlington Heights, Illinois is a non-profit research and market development organization, which aims to stimulate the development of new and increased uses for milk and dairy products in the U.S. It is financed 100 per cent by dairy farmers.

Dr. Farrar who visited dairy plants and food outlets in Hawaii, Australia, Tokyo and Hong Kong said that some of the dairy food ideas he found overseas might soon be adapted for U.S. consumption.

FRESH FEEDS

LIKE FEEDING YOUR HOGS AND CATTLE NEXT TO THE MILL!

Almost like having your own private mill right on the farm. For we aim to have our feed delivered to the farm and in the feeders within mere hours after it is made. We do all the work. Pelleted feeds, too. With all the fresh flavor locked in. Pellets that feed down easy in the feeders, that keep feed from blowing away, that hold down feed waste. Fresh pelleted complete feeds. There is a difference. Try us and see.
